Gentlemen:

SUBJECT: NOTICE OF VIOLATION
(NRC INSPECTION REPORT NOS. 50-338/88-13 AND 50-339/88-13)

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by M. Hunt and team on July 18-22, 1988. The inspection included a review of activities authorized for your North Anna facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities appeared to violate NRC requirements. The violation with pertinent references is described in the enclosed Notice. Corrective actions to eliminate the violation and the possibility of similar violations had been completed prior to this inspection, therefore, a reply to the enclosed Notice is not required.

Your attention is invited to unresolved items identified in the inspection report. These matters will be pursued during future inspections.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,

AS
