Dear Mr. Jordan:

SUBJECT: CONVERSION OF LICENSE TO POSSESSION ONLY STATUS

The Nuclear Regulatory Commission has issued Amendment No. 9 to Facility Operating License No. R-31, which authorizes possession, but not operation, of The Catholic University of America AGN-201 research reactor. This amended license is in response to your application dated October 22, 1985, requesting conversion of your license to a possession-only status while plans are being developed for decommissioning and license termination. We have restated the license in its entirety, incorporating the changes necessary to reflect the possession-only status. The amendment also includes the technical specification changes requested in your application.

Copies of Amendment No. 9 and the related Safety Evaluation are enclosed.

Sincerely,

*DT*
