Gentlemen:

SUBJECT: REPORT NOS. 50-325/86-01 AND 50-324/86-01

On January 1 - 31, 1986, NRC inspected activities authorized by NRC Operating License Nos. DPR-71 and DPR-62 for your Brunswick Steam Electric Plant. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities violated NRC requirements. This violation is an additional example of a violation identified during a previous inspection conducted December 1-31, 1985 (Inspection Report Nos. 50-325/85-40 and 50-324/85-40). Please include your response to the findings listed in paragraph 6 with your response to the previously identified violation and submit your combined response within thirty days of the date of this letter.

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,

Original Signed by
