Mr. Harold Denton
Director, ONRR
Nuclear Regulatory Commission
Bethesda, MD 20555

Dear Harold:

As you may know by now from our previous mailing, the NCSU Department of Nuclear Engineering is now 25 years old and planning to celebrate this anniversary by having an alumni reunion. We have scheduled the reunion to start with a mixer on Friday evening, May 15th, followed by a full-day program on Saturday, May 16th. On Saturday morning, we are planning to have several of our most distinguished alumni present talks on current issues which they are involved with and would be of interest to our alumni. I am pleased to invite you to be one of the speakers for this morning program. With your long association with the Nuclear Regulatory Commission, I would hope you could discuss the current performance of the nuclear industry and what is required of all parties involved to revitalize the nuclear option.

In return for your participation, all I can offer is an opportunity for you to renew some acquaintances with NE alumni and the University. I would appreciate hearing from you in the very near future concerning whether you will accept my invitation. Assuming you do accept, I will need the title of your talk. To expedite matters, please feel free to call me [919-737-2301]. I look forward to your participation.

Sincerely,

A handwritten signature in cursive script, appearing to read "Paul".
