Embedment Plate

Mr. P. Kaufman  
NRC Region III  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

Dear Mr. Kaufman:

In accordance with your telephone request of February 21, 1986, enclosed please find a copy of the following documents that we have been able to find so far that contain discussions of the Embedment Plate Issue of Fermi - 2:

<u>Document Description</u>	<u>Remarks</u>
Minutes of DECo (internal) May 15, 1979 meeting	Purpose - Determine Division of Responsibility; No S&L attendees
Minutes of DECo/S&L June 3-4, 1981 meeting	Page 6 documents embedment plate responsibility
W. M. Street Notes 03-21-84	Pending Structural Work, as described by DECo, see Item 1C for embedment plate analysis
Project Status Update for Mr. R. A. Vance, May 15, 1984	5285-13 slows embedment plate qualification as DECo scope

<u>Document Description</u>	<u>Remarks</u>
S&L letter SLM-EF-306, dated August 28, 1985	Final load verification of embedment plates (SWCR-85-32)
DECo letter F2E-85-2002, dated September 9, 1985	DECo's acceptance of S&L's proposal to analyze embedment plates

As I indicated to you in our telephone conversation of February 26, 1986, due to our demobilization of the Fermi project in recent months, some of our files have been sent to our warehouse for storage. We have not undergone a search for that portion. Additionally, the above documents were found from the available files presently located primarily in my office and Mr. M. Tatosian's office. While this package should cover most of the documents related to the embedment plate subject, please understand that this may not be the "complete" package.

Per instructions of Mr. J. Flynn of DECo and agreed upon by you, we are sending copies of the above documents to the DECo representatives identified in this letter concurrent with this transmittal.

Yours very truly,

F. P. Tsai  
Project Manager
