

YOUR GOALS. OUR MISSION.

June 1, 2020

Mr. Jason Kelly US Nuclear Regulatory Commission Materials Licensing Branch Region III 2443 Warrenville Road, Suite 210 Lisle, Illinois 60532

RE: Additional Information to Control No. 618328 T&M Associates Application for Materials License License No. 13-35589-01 Docket No. 030-39222

Dear Mr. Kelly:

This letter refers to your request for additional information (RFAI) dated June 1, 2020 and supplements the information T&M provided in our March 12, 2020 and May 8, 2020 submittals. We are providing the additional information as follows, please note that your request is listed, and our underlined response is provided below your request:

 Section 8.10.3 of the guidance states that licensees must maintain records of receipt, transfer, and disposal of gauges and conduct physical inventories every 6 months (or at other intervals justified by the applicant and approved by the NRC) to account for all sealed sources. While your application indicated that you would maintain records of receipt, transfer, and disposal of gauges, there was no commitment regarding the performance of physical inventories to account for all sealed sources.

<u>T&M personnel will perform physical inventories every 6 months to account for all sealed sources, per</u> <u>NUREG-1556, Volume 1, Rev. 2, dated June 2016, "Consolidated Guidance About Materials Licenses,</u> <u>Program — Specific Guidance About Portable Gauge Licenses."</u>

Should you require any additional information, please contact Brandon Comer at (856) 505-3825 or bcomer@tandmassociates.com.

Sincerely, T&M ASSOCIATES, INC.

Timothy Kinsella, CPG Senior Vice President
