SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)  
DOCKET NOS. 50-445 AND 50-446  
FLOODING CONCERNS  
SDAR: CP-84-017 (SUPPLEMENTAL REPORT)

Gentlemen:

On August 16, 1984, TU Electric letter TXX-4263 provided notification that the deficiency involving flooding concerns was reportable under the provisions of 10CFR50.55(e). The latest report on this issue was TXX-88425, dated May 5, 1988. This report is submitted to update the corrective action completion schedule.

TXX-88425 indicated that Unit 1 engineering walkdowns to determine interactions with essential equipment, based on revised flood level calculations, would be completed by September 15, 1988. This activity has been rescheduled for completion by January 4, 1989.

All other corrective actions remain as scheduled in TXX-88425.

Very truly yours,

*W. G. Council*
