Subject: Commission Approval of Licensed Operator Training

Gentlemen:

Pursuant to the guidance in reference (b), Vermont Yankee hereby certifies that its licensed operator initial and continuing (requalification) training was accredited in April 1986 by the Accrediting Board of the National Academy for Nuclear Training and is based upon a systems approach to training (as defined by the Academy and 10 CFR 55). Accordingly, we intend to amend our FSAR later this year with a similar certification.

Should you have any questions about this submittal or our licensed operator training program, please do not hesitate to contact me.

Very truly yours,

VERMONT YANKEE NUCLEAR POWER CORP.
