

MAR 6 1986

Docket No. 50-373
Docket No. 50-374

Commonwealth Edison Company
ATTN: Mr. Cordell Reed
Vice President
Post Office Box 767
Chicago, IL 60690

Gentlemen:

This refers to your letter dated February 2, 1986, in which you plan to reduce the LaSalle County Station's radiological environmental monitoring program to reflect its operational phase starting April 1, 1986. In review of this revised program, we believe that the milk monitoring program should be clarified. We expect that I-131 and gamma isotopic analyses will be performed on each weekly milk sample from May through October and both analyses performed on each monthly sample from November through April for each year. Except for the milk program, we have no further questions of the revised program.

Thank you for informing us of your future plans.

Sincerely,

"Original signed by W.D. Shafer"
