Gentlemen:

SUBJECT: REPORT NOS. 50-327/86-07 AND 50-328/86-07

On January 21-24, 1986, NRC inspected activities authorized by NRC Operating License Nos. DPR-77 and DPR-79 for your Sequoyah facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

A concern was identified relating to Field Change Requests (FCR) being reflected on as-designed drawings. The concern is discussed in paragraph 5 and will be reviewed by the Office of Inspection and Enforcement (IE) during future inspections.

Within the scope of the inspection, no violations or deviations were identified.

Should you have any questions concerning this letter, please contact us.

Sincerely,

Original Signed by
