Security Plan Revision 10,
10 CFR 73.55 Amendments

Gentlemen:

The Cleveland Electric Illuminating Company hereby submits 4 copies of the final approved Security Plan Revision 10 pages for incorporation into your controlled manuals. These changes have been previously approved by the NRC as documented by Amendment No. 11 to the PNPP Operating License dated March 15, 1988. The revision incorporates the recent additional requirements of 10 CFR 73.55. These pages are submitted in keeping with our commitment to issue replacement pages following NRC approval of our proposed amendments (see letter PY-CEI/NRR-0567 L, dated December 16, 1986). The attached pages are therefore stamped with the effective date of Amendment 11, and include the revisions submitted through September 11, 1987, as identified in Amendment 11.

If there are any questions, please feel free to call.

Very truly yours,
