

Docket No. 50-219

MAR 06 1986

Mr. P. B. Fiedler
Vice President and Director
Oyster Creek Nuclear Generating Station
Post Office Box 388
Forked River, New Jersey 08731

Dear Mr. Fiedler:

SUBJECT: REQUEST FOR CONTROLLED OYSTER CREEK DOCUMENTS

Re: Oyster Creek Nuclear Generating Station

As NRR/NRC Project Manager for Oyster Creek, I request that you issue me a controlled copy of the following documents for the station: Emergency Operating Procedures (EOP), Quality Assurance Plan and station prints. These documents would be kept under my control in my office with my controlled copy of the Oyster Creek Updated Final Safety Analysis Report. These documents would be used by me in managing reviews of Oyster Creek technical issues before the staff and would be available to the NRC Incident Response Center, if needed.

These documents are needed for me to do my work as project manager for Oyster Creek at NRR/NRC headquarters. For example, these documents would have materially assisted me in completing the staff reviews of Oyster Creek emergency technical specifications changes in 1985 for the Cycle 10M outage. This has been discussed with M. Laggart and D. Holland of GPU Nuclear Corporation.

Sincerely,

original signed by

Jack N. Donohew, Project Manager
