Docket No. 50-346

Toledo Edison Company
ATTN: Mr. Donald Shelton
Vice President
Nuclear
Edison Plaza
300 Madison Avenue
Toledo, OH 43652

SUBJECT: REQUALIFICATION EXAMINATION EXEMPTION REQUEST LICENSE NO. NPF-3

Dear Gentlemen:

This acknowledges your September 2, 1988 letter which requested an exemption from currently scheduled requalification written examination and operating test cycle requirements outlined in 10 CFR 55.59 for the Davis-Besse Nuclear Power Station. The currently scheduled examinations (September through November 1988) would impact the scheduled Davis-Besse Nuclear Station startup in this time period. The exemption for delay for the requalification written examination and annual operating test is granted with the provision that this is a one time authorization (i.e., that the requalification examination cycle delay from September/November will be extended to January/February 1989 only) and that the Davis-Besse requalification cycle will resume its original scheduled examination cycle.

Any questions you may have regarding this matter may be directed to me at 312/790-5788 or T. Burdick at 312/790-5566.

Sincerely,

ORIGINAL SIGNED BY HUBERT J. MILLER
