Docket Nos. STN 50-498, STN 50-499  
Change to Technical Specification Bases

The South Texas Project Technical Specification Bases has been changed pursuant to 10CFR50.59. This change resolves inconsistencies between the UFSAR commitment to Regulatory Guide 1.129 and Technical Specification on testing requirements for a degraded battery (annual verses 18 months). In addition, this change revises the format for Technical Specification Bases section for AC and DC Sources to the same format of other sections of the bases document. It also provides additional information on Surveillance requirements for batteries. Attached are copies of the revised Technical Specification Bases pages.

If there are any questions, please contact A. W. Harrison at (512) 972-7198 or me at (512) 972-7162.

S. E. Thomas
