Perry Nuclear Power Plant  
Docket No. 50-440  
Extended Compensatory Measures

Gentlemen:

By letters dated October 30, 1987 (PY-CEI/OIE-0287 L) and November 20, 1987 (PY-CEI/NRR-0748 L), the Cleveland Electric Illuminating Company (CEI) notified the NRC of extended compensatory measures being implemented at the Perry Nuclear Power Plant during the construction of an addition to the existing Maintenance Building. This construction was scheduled to be completed by May 31, 1988. The construction schedule has since been extended beyond that date. Therefore, the associated temporary 50.54(p) change to the security plan will now expire on July 15, 1988.

If you have any questions, please feel free to call.

Very truly yours,

Al Kaplan  
Vice President  
Nuclear Group
