JUN 12 1998

May 1998

The reactor operated continuously in May with the following exceptions: four shutdowns for scheduled maintenance and/or refueling.

Two NRC inspectors visited the facility to review our exempt release license. No violations and no areas of concern were noted.

Major maintenance items for the month included: conducting the annual containment building leak rate test; shipping 16 spent fuel elements to the Department of Energy's Savannah River Site in South Carolina.

OPERATIONS SUMMARY

HOURS OPERATED THIS PERIOD	692
TOTAL HOURS OPERATED	212,000
HOURS AT FULL POWER THIS PERIOD	689
TOTAL HOURS AT FULL POWER	208,901
INTEGRATED POWER THIS PERIOD	287 MWD
TOTAL INTEGRATED POWER	81,194 MWD

MAINTENANCE ACTIVITIES

05/04/98 Refueled - removed core 98-23, loaded core 98-24.

05/11/98 Refueled - removed core 98-24, loaded core 98-25. Performed annual containment building leak rate test.

05/18/98 Refueled - removed core 98-25, loaded core 98-26.

05/25/98 Refueled - removed core 98-26, loaded core 98-27.
