

UNITED STATES NUCLEAR REGULATORY COMMISSION
NORTHEAST NUCLEAR ENERGY COMPANY
DOCKET NO. 50-336
NOTICE OF WITHDRAWAL OF APPLICATION FOR
AMENDMENT TO FACILITY OPERATING LICENSE

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Northeast Nuclear Energy Company (NNECO) to withdraw its July 7, 1995, application for proposed amendment to Facility Operating License No. DRP-65 for the Millstone Nuclear Power Station, Unit No. 2, located in New London County, Connecticut.

The proposed amendment would have revised the requirements for the control room air conditioning system and supporting Bases. Subsequently, by letter dated August 4, 1998, NNECO withdrew the amendment request because it is in the process of performing new radiological assessment calculations for various Millstone, Unit No. 2, design basis accidents, which will result in changes to the proposed amendment. NNECO also indicated that it would no longer be necessary to respond to the two requests for additional information dated November 6 and 25, 1997, since the amendment request is being withdrawn.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the FEDERAL REGISTER on August 2, 1995 (60 FR 39443). However, by letter dated August 4, 1998, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated July 7, 1995, and the licensee's letter dated August 4, 1998, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document rooms located at the Learning Resources Center, Three Rivers Community-Technical College, 574 New London Turnpike, Norwich, Connecticut, and the Waterford Library, ATTN: Vince Juliano, 49 Rope Ferry Road, Waterford, Connecticut.

Dated at Rockville, Maryland, this **16th day of September 1998.**
