MEMORANDUM FOR: Richard Starostecki, Director
Division of Reactor Projects
Region I

FROM: Walter R. Butler, Director
BWR Project Directorate No. 4
Division of BWR Licensing

SUBJECT: GENERIC LETTER 83-28 REVIEW - LIMERICK

Generic Letter 83-28 was issued in response to the Salem ATWS events of February 1983. In the Generic Letter, the staff requested that recipients provide the status of current conformance with the positions contained in the generic letter. The Philadelphia Electric Company (PECo) responded in a series of letters.

Region I is requested to review the enclosed portions of the PECo responses dated Nov. 10, 1983, for items 3.1.1, 3.1.2, 3.2.1, 3.2.2 and May 8, 1984, for item 4.5.1. The review should consist of a complete Safety Evaluation and a SALP input. The TACS and MPA numbers and the Lead NRR Project Managers for these items are as follows:

<u>Item</u>	<u>TACS/MPA</u>	<u>Lead NRR PM</u>
3.1.1/3.1.2	56258/B-78	J. Hopkins
3.2.1/3.2.2	56260/B-87	A. Toalston
4.5.1	56262/B-92	D. Lasher

It is quite likely that status of these issues as reported in Inspection Report No. 50-352/85-47, will be useful in completing the requested effort. We request that these SE's be completed by June 30, 1986. If you need additional information, please contact the staff's Project Manager for the Limerick application, R. E. Martin.
