

APPENDIX A

NOTICE OF VIOLATION

Nebraska Public Power District
Cooper Nuclear Station

Docket No.: 50-298/86-06
License No.: DPR-46

During an NRC inspection conducted on February 3-7, 1986, a violation of NRC requirements was identified. The violation involved the failure to follow the requalification training plan. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1985), the violation is listed below:

Failure to Follow the Requalification Training Plan

10 CFR Part 50.54(i-1), states, in part, "Notwithstanding the provisions of 50.59, the licensee shall not, except as specifically authorized by the Commission, make a change in an approved operator requalification program by which the scope, time allotted for the program for frequency in conducting different parts of the program is decreased." The licensee's approved requalification training program requires that individuals who score less than 80% correct on a section of the annual requalification examination, attend lectures pertinent to that section and that written examinations covering the lecture material presented be given.

Contrary to the above, two individuals who had scored less than 80% on specific sections of the 1984 requalification examination were not given written examinations as required by the approved requalification training plan after lectures, which they were required to attend because of low scores on the annual requalification examination.

This is a Severity Level IV violation (Supplement I.D) (50-298/8606-02).

Pursuant to the provisions of 10 CFR 2.201, Nebraska Public Power District is hereby required to submit to this office within 30 days of the date of the letter transmitting this Notice, a written statement or explanation in reply, including for each violation: (1) the reason for the violations if admitted, (2) the corrective steps which have been taken and the results achieved, (3) the corrective steps which will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending the response time.

Dated at Arlington, Texas,
this 7th day of March, 1986.
