BISCO Test Reports

Dear Dr. Butler:

At the request of your Staff, BISCO Test Reports 748-15, 748-64 and details 105 and 110 are attached. Due to the proprietary nature of the reports, BISCO requires they be used for the sole purpose of your Staff's review of CPS fire penetration seals. Tables IX and X of Test Report 748-15 and the steel conduit in Table 01 of Test Report 748-64 are configurations used at Clinton. If you need any further information, please advise.

Sincerely yours,
