Re: Revision to Physical Security Plan  
Submitted by the Penn State Breazeale  
Reactor, License No. R-2, Docket No.  
50-05

Dear Sir or Madame:

Reassignment of office space at the Penn State Breazeale Reactor (PSBR) necessitates changes to the PSBR Physical Security Plan. Since these changes do not decrease the safeguards effectiveness of the plan, they are being made without prior NRC approval pursuant to paragraph 50.54(P)(2) of CFR Title 10.

A description of the space reassignment and the plan changes necessitated by that reassignments are attached.

Sincerely,

Charles L. Hosler  
Senior Vice President for Research  
and Dean of Graduate School
