Re: Decommissioning Plan
Date: August 25, 1998

*Rec 8/25/98 inter call to the Station
on 8/24/98 - (OK id by cat
Adams) conveyed info to
Frank D.*

As we discussed yesterday, I verified this morning that the inner sleeves in the fuel storage containers are cardboard rather than metal.

The first floor area in which the fuel is stored is equipped with sprinklers as are the rooms on the upper level of the nuclear engineering laboratory facility. A carbon dioxide fire extinguisher is also available in the laboratory.

If you have any further questions, please contact me and I will get the information you need.
