By letter dated April 5, 1997, the Union of Concerned Scientists (UCS or Petitioner) submitted a Petition pursuant to 10 CFR 2.206 requesting (1) that the operating license for Browns Ferry Nuclear Plant, Unit 1 be revoked and (2) that the NRC require TVA to submit either a decommissioning plan or a lay-up plan for Browns Ferry Nuclear Plant, Unit 1. In addition, the Petitioner requested a hearing on this petition to present new information on Browns Ferry Nuclear Plant, Unit 1 that would include a discussion of the licensing basis reconstitution that would be required to support restart, and certain financial aspects that might be a consideration for the TVA's decision for retaining the Browns Ferry Unit 1 operating license.

The purpose of this informal public hearing is to obtain additional information from the Petitioner, the licensee, and the public for NRC staff use in evaluating the Petition. Therefore, this informal public hearing will be limited to information relevant to issues raised in the Petition. The staff will not offer any preliminary views on its evaluation of the Petition. The informal public hearing will be chaired by a senior NRC official who will limit presentations to the above subject.

The format of the informal public hearing will be as follows:

opening remarks by the NRC regarding the general 10 CFR 2.206 process, the purpose of the informal public hearing, and a brief summary of the Petition and its Addendum (15 minutes); time for the Petitioner to articulate the basis of the Petition (45 minutes); time for the NRC to ask the Petitioner questions for purposes of clarification (15 minutes); time for the licensee to address the issues raised in the Petition (45 minutes); time for the NRC to ask the licensee questions for purposes of clarification (15 minutes); time for public comments relative to the Petition (30 minutes); and time for licensee and Petitioner's final statements (15 minutes).

Members of the public who are interested in presenting information relative to the Petition should notify the NRC official named below, 5 working days prior to the hearing. A brief summary of the information to be presented and the time requested should be provided in order to make appropriate arrangements. Time allotted for presentations by members of the public will be

determined based upon the number of requests received and will be announced at the beginning of the hearing. The order for public presentations will be on a first received first to speak basis.

Written statements will also be accepted and included in the record of the hearing.

Written statements should be mailed to the U.S. Nuclear Regulatory Commission, Mail stop O-14B21, Attn: Albert W. De Agazio, Washington, DC 20555.

Requests for the opportunity to present information can be made by contacting Albert W. De Agazio, Project Manager, Division of Reactor Projects-I/II (telephone 301-115-1443) between 8:00 a.m. to 5:45 p.m. (EDT), Monday-Friday. Persons planning to attend this informal public hearing are urged to contact the above 1 or 2 days prior to the informal public hearing to be advised of any changes that may have occurred.
