Washington, D. C. 20555 - 0001

Braidwood Station, Units 1 and 2
Facility Operating Licenses NPF-72 and NPF-77
NRC Docket Nos. STN 50-456 and STN 50-457

Subject: Supplemental Information, Braidwood Station Units 1 and 2, Inservice Testing Program Plan for Pumps and Valves, Interval 2, Revision 0.

Reference: T. J. Tulon (Commonwealth Edison Company) to US Nuclear Regulatory Commission letter dated April 16, 1998, "Braidwood Station Units 1 and 2 Inservice Testing Program Plan for Pumps and Valves".

The referenced transmittal provided Revision 0 of the second 10-year interval Braidwood Inservice Testing Program Plan. In order to support the staff's review of the requests for relief from certain American Society of Mechanical Engineers Code requirements, Commonwealth Edison is enclosing those Piping and Instrumentation Diagrams relevant to the affected valves.

Please address any comments or questions regarding this matter to T. W. Simpkin at (815) 458-2801, extension 2980.

Sincerely,

Timothy J. Tulon
Site Vice President
Braidwood Nuclear Generating Station
