

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

February 17, 1982

MEMORANDUM FOR: Chairman Palladino  
Commissioner Gilinsky  
Commissioner Bradford  
Commissioner Ahearne  
Commissioner Roberts

FROM: William J. Dircks  
Executive Director for Operations

SUBJECT: DAILY STAFF NOTES - FEBRUARY 16, 1982 (ADDENDUM)

The following item should be added to the NRR portion of the Daily Staff Notes for February 16, 1982:

6. SAN ONOFRE NUCLEAR GENERATING STATION, UNIT 2

An operating license was issued on February 16 to the Southern California Edison Company for initial operating of its San Onofre Nuclear Generating Station, Unit 2 facility located at San Clemente, California. In accordance with the Partial Initial Decision of the Atomic Safety and Licensing Board, dated January 11, 1982, the licensee is restricted to operation at or below 5% of full power (169.5 Mwt). Unit 1 at the same site has been in operation since 1967.

The operating license was issued following completion of the staff review of all outstanding items related to operation at or below 5% power, including the interim results of an independent seismic design verification review. This review is being performed by Torrey Pines Technology, a subsidiary of the General Atomic Company (GA).
