FROM: Gus C. Lainas, Assistant Director
 for BWR
 Division of BWR Licensing

SUBJECT: USE OF LATER ASME CODE EDITIONS - HOPE CREEK GENERATING STATION

By letter dated January 27, 1986 (Corbin A. McNeill, Jr. to Elinor Adensam), Public Service Electric and Gas Company requested permission to use later ASME Code Editions for the design and fabrication of components and supports for the Hope Creek Generating Station. The BWR-EB has performed a review on this request and recommends its acceptance. The Safety Evaluation Report is enclosed. This completes the EB effort for this request.
