Docket Nos. 50-277
50-278

Mr. William T. Russell
Administrator, Region I
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Attention: Document Control Desk

Reference: Letter from J. F. Paquette, Jr., to W. T. Russell dated April 8, 1988

Dear Mr. Russell:

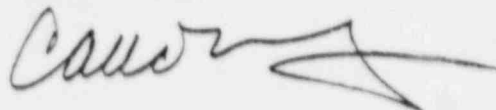

On April 8, 1988 when we transmitted Sections I and II of the Plan for Restart of Peach Bottom Atomic Power Station, Revision I, as well as a schedule of the major activities in the revised Plan, we indicated that we would update our schedule monthly to enable PE and the NRC to monitor progress.

Enclosed are fifteen (15) copies of our second monthly schedule update. The solid line below each activity in the bar schedule is the original April 8, 1988 baseline schedule duration. The rectangular bar above the solid line represents the current forecast duration for each activity. The dark line within the rectangular bar represents current progress as of May 31, 1988.

As of May 31, 1988 we have actually completed 83 of the 138 total activities in Sections I and II of the Plan.

If you or your staff have any questions about our Restart Plan or schedule, please do not hesitate to contact me.

Sincerely,

cc: Addressee
R. E. Martin, Project Manager (5 copies)
