REPLY TO AFMS: SGPR
ATTN OF BROOKRAFM TEXAS 78235-0000

SUBJECT Request for Information Pursuant to 10 CFR 30.7 (Your 11 May 88 Letter)--
Request for Response Extension

TO: USNRC Region IV
Attn: Mr. Dale Powers
611 Ryan Plaza
Arlington, TX 76011

1. Reference telecon between Mr. Dale Powers and Major Lawrence Donovan on 26 May 88 regarding circumstances under which we are requesting an extension to the 11 May 88 letter sent to Col Bryant Mauk from the Nuclear Regulatory Commission (NRC) Regional Administrator, Mr. R.L. Martin.
2. The letter was sent by certified mail to the past Chairman of the Radioisotope Committee (RIC), Col. Bryant Mauk, HQ USAF/SGP, Bolling AFB, Washington, D.C.. Col Mauk was recently replaced by Col Maffet, the new Chairman of the Radioisotope Committee. The letter was received by HQ USAF/SGP, and, because it was addressed specifically to Col Mauk, was re-routed by normal distribution to him at his new position as Command Surgeon at the Electronic Security Command, Kelly AFB, TX. He notified me by telecon upon receipt of the letter on 26 May 88 and delivered the letter to our office that morning.
3. We have initiated action, through Command and legal channels, to obtain the required information in response to NRC's request for information, but we now seek an extension of the suspense date based upon our belated receipt of the letter and upon the additional time needed to obtain release authority of pertinent documents. Please advise us by telecon and written follow-up if an extension will be granted.
4. Any questions regarding the above should be directed to this office at telephone number 512-536-3331, or in writing.
