

APR 03 1986

Docket No. 50-483

Union Electric Company  
ATTN: Mr. Donald F. Schnell  
Vice President - Nuclear  
Post Office Box 149 - Mail Code 400  
St. Louis, MO 63166

Dear Mr. Schnell:

This letter is in reference to the telephone conversation between Mr. E. G. Greenman of my staff and yourself on April 3, 1986.

As we indicated to you, NRC has recently received an allegation, made under oath, that certain of your contractor employees have used drugs while on site at your Callaway facility. The informant has requested that his identity remain confidential. The Enclosure to this letter provides a summary of the allegations.

The NRC has not made an attempt to ascertain the accuracy of the information supplied by this informant. However, if the information is true, there may be a question concerning the fitness for duty of certain of your contractor employees who may have been engaged in safety-related activities. We, therefore, are providing the enclosed information so that you can take the appropriate action to make sure that drug abusers are/were not involved in activities needed to assure the public health and safety.

The enclosed information is being supplied in confidence and is not being placed in the Public Document Room. As we discussed during the above referenced call, appropriate safeguards should be applied to the enclosed information in view of its unsubstantiated nature in order to avoid an unwarranted invasion of privacy or defamation of character.

A similar letter is being sent to Daniels International Construction. Should you have any questions, please contact Mr. E. G. Greenman of this office ((312)790-5518).

Sincerely,

8604080140 860403
