ATTN: Mr. W. G. Council
Executive Vice President
400 North Olive, L.B. 81
Dallas, Texas 75201

Gentlemen:

Thank you for your letter dated February 21, 1986, in response to our letter dated December 24, 1985. As a result of our review, we find we are in need of additional information with respect to Item B in the Notice of Violation (NOV) and Item A in the Notice of Deviation (NOD). Specifically, your response to Item A in the NOV (1) failed to provide the additional information requested in our letter of December 24, 1985, regarding Unit 1 operations-procedural controls for potentially deleterious materials, and (2) did not address the cause of the procedural weaknesses related to the control of deleterious materials.

With respect to Item A in the NOD, please clarify what actions were taken to assure similar misunderstandings of requirements did not occur in other action plans.

We have no further questions regarding Item A in the NOV; however, we are concerned that complete information was not provided to our NRC inspectors at the time of the inspection. With regard to Items C, D, and E, it is our understanding that you will be performing surveillance on a continuing basis. Please inform us if our understanding is incorrect.

Please provide the supplemental information within 20 days of the date of this letter.
