Docket Nos. 50-321 and 50-366
License Nos. DPR-57 and NPF-5

✓ Georgia Power Company
ATTN: Mr. W. G. Hairston, III
Senior Vice President-
Nuclear Operations
P.O. Box 4545
Atlanta, GA 30302

Gentlemen:

SUBJECT: NOTICE OF VIOLATION
(NRC INSPECTION REPORT NOS. 50-321/88-24 AND 50-366/88-24)

This refers to the Nuclear Regulatory Commission (NRC) inspections conducted by Messrs. J. Menning and R. Musser on July 23 - August 19, 1988, and by Mr. M. Ernstes on August 22-24, 1988. The inspections included a review of activities authorized for your Hatch facility. At the conclusion of the inspections, the findings were discussed with those members of your staff identified in the enclosed Inspection Report.

Areas examined during the inspections are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities violated NRC requirements. Two violations, references to pertinent requirements, and elements to be included in your response are presented in the enclosed Notice of Violation. However, because all of the criteria for categorization of licensee-identified violations were met in some instances, the remaining four violations are not being cited. The details pertaining to these licensee-identified violations are described in the enclosed Inspection Report.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, Pub. L. No. 96-511.
