Joseph M. Farley Nuclear Plant
ITS RAI Response Target Date Revision

Ladies and Gentlemen:

By letter dated August 21, 1998, the NRC provided a Request for Additional Information (RAI) regarding the conversion to the Improved Technical Specifications (ITS) for Farley Nuclear Plant (FNP) Units 1 and 2. This RAI contained questions related to the review of ITS Sections 3.6 and 5.0 and identified a target date for SNC response of October 23, 1998. A conference call was held on September 23, 1998, followed by a meeting in Washington, D.C. with NRC staff on October 14, 1998, to discuss this RAI. As a result of these discussions, additional time will be needed to respond to this RAI. This letter revises the target date for SNC response to November 23, 1998.

If you have any questions, please advise.

Respectfully submitted,

A handwritten signature in cursive script that reads "Dave Morey".
