Gentlemen:

This refers to the inspection conducted by Mr. R. A. Caldwell of this office on January 22, 1986, of activities authorized by NRC Special Nuclear Material License SNM-1912 for Comanche Peak Steam Electric Station, Unit No. 1, and to the discussion of our findings with Bruno Kanulfus, and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included interim fuel storage plan, controlled access area, and access controls. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

During this inspection, it was found that certain of your activities were in violation of NRC requirements. Consequently, you are required to respond to these violations, in writing, in accordance with the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material, with the exception of the report cover page which is an inspection summary, will not be placed in the Public Document Room.

The response directed by this letter and the accompanying Notice is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
