

MAY 26 1988

Mr. S. A. White  
Manager of Nuclear Power  
Tennessee Valley Authority  
6N 38A Lookout Place  
1101 Market Street  
Chattanooga, Tennessee 37402-2801

Dear Mr. White:

SUBJECT: SYSTEMATIC ASSESSMENT OF LICENSEE PERFORMANCE

Re: Sequoyah Nuclear Plant, Units 1 and 2

The purpose of this letter is to inform you that the NRC has resumed the Systematic Assessment of Licensee Performance (SALP) program for the Sequoyah facility. The evaluation period will be approximately twelve months. However, the exact time of the evaluation may be affected by the status of the Sequoyah units at the end of that period. For planning purposes, we consider that the evaluation period began on February 4, 1988.

Although there is substantial post-restart work yet to be done for Sequoyah Unit 2 and Sequoyah Unit 1 is not expected to restart for several months, we believe that this is the time to resume the SALP process. In this way, we expect to begin restoring normal regulatory programs at Sequoyah.

Should you have any questions regarding this letter or the SALP process, please do not hesitate to contact us.

Sincerely,

Stewart D. Ebnetter, Director  
Office of Special Projects
