Dear Mr. Capstick:

SUBJECT: DEGRADED GRID VOLTAGE PROCEDURES

Re: Vermont Yankee Nuclear Power Station

The Safety Evaluation describing the NRC review of the design modifications pertaining to degraded grid voltage protection is being transmitted to you by a concurrently issued letter. In the Safety Evaluation it was stated that associated operating procedures would be reviewed as a separate activity. We have completed our review of your procedures for degraded grid voltage protection for class 1E power systems and find them acceptable.

A copy of our Safety Evaluation is enclosed. Our evaluation of final operator procedures and Technical Specifications will be processed in a separate action.

Sincerely,
