RE: SIGNIFICANT HAZARDS MATERIAL

Here's the significant hazards material we discussed. I'd like your concurrence ASAP.

Tom Dorian

P.S. Note that I've sent the original to Scott and copies to Schwink and Trammell.

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

Mr. Nathaniel Scurry
Office of Management and Budget
Reports Management, Room 3201
New Executive Office Building
Washington, D. C. 20502

Dear Mr. Scurry:

In accordance with Section 3507 of Public Law 96-511 of December 11, 1980 and regulations of the Office of Management and Budget, I am enclosing for OMB review copies of Standard Form-83 and the Supporting Statement covering an information collection requirement regarding licensees analyses of significant hazards issues in their license amendment requested. The requirement is necessitated by recent legislation, as described in the enclosed Commission papers, SECY-83-16 and 16A.

The estimated respondent burden is 2,400 hours.

In accordance with NRC's procedures, my staff has reviewed this proposed information collection for duplication and found no similar requirement in the agency. Therefore, we are transmitting this material for appropriate OMB review and approval.

OMB approval is requested by the close of business ^{Wednesday 23} Friday, February 18, 1983, to ensure adequate time to meet the legislative deadline. ✓

Sincerely,

Patricia G. Norry, Director
Office of Administration
