SECRETARY OF COMMISSION
U.S. NUCLEAR REG. COMMISSION
WASHINGTON DC 20555

DOCKET
UNIT

88 JUN -2 P7:23

Dear Sir

I am writing to you in support
of the proposed new rule clarifying
requirements for new nuclear power plants,
so that low power testing can be
conducted

New England needs the power that
can be produced at Seabrook station
and the sooner the plant can be
put into operation the better

Sincerely,

Ronald A. Woods
