NRC Docket No. 50-341
NRC License No. NPF-43

Subject: Submittal of Fermi 2 Physical Security Plan (Revision 13)
and Safeguards Contingency Plan (Revision 3)

In accordance with 10CFR50.54(p) Detroit Edison submits Fermi 2 Physical Security Plan (Revision 13) and Safeguards Contingency Plan (Revision 3). The changes made under these revisions do not decrease the safeguards effectiveness of either plan.

The changes to the Physical Security Plan involve Chapter 3 "Access Requirements" only, and were made to standardize and streamline access authorization at Fermi 2. Only Chapter 3 and the Table of Contents have been included in this submittal. Changes are highlighted with revision bars in the right margin.

The change to the Safeguards Contingency Plan involves deletion of Chapter 4 "Responsibility Matrix". Rather than revise Chapter 4 to incorporate the new reporting requirements in 10CFR73.71 issued in October 1987, the chapter is being deleted. The new reporting requirements have been addressed in Security Plan Implementing Procedure SPIP-32, "Reporting Physical Security Events". This change was reviewed with NRC Region III inspector Mr. G. Pirtle. A revised Table of Contents is being submitted which reflects the deletion of Chapter 4.

Because the enclosure contains safeguards information, this letter is being mailed to the NRC Document Control Desk without the enclosure.
