Dr. John Cooper, Director
Licensing Branch,
Nuclear Regulatory Commission
799 Roosevelt Road, Bldg. 4
Glen Ellyn, Illinois 60137

Dear Dr. Cooper:

Enclosed is a request for renewal of the Loyola University Medical Center Type A specific license of broad scope (License number 12-11355-04) for use of byproduct materials. Our radioisotope use requirements are essentially unchanged from those described in the latest amended version of the license - September, 1977.

The request for renewal is being submitted in the following parts:

1. NRC 313 and 313a forms, including a preceptor statement of Dr. Robert Henkin.
2. A description of the Radiation Control program, including responsibilities of the Committee and Radiation Protection Supervisor.
3. Background information on Radiation Control Committee members.
4. The Radioisotope Procedure Manual, including (Part A) General Policies on radioisotope use and (Part B) Policies regarding human use of radioisotopes.
5. A list of and calibration procedures for radiation detection instruments.
6. A facility description.

B604160428 B60307
REG LIC30
12-11355-04 PDR

In order to expedite response, I would appreciate it if you could direct to me a copy of correspondence regarding this license.

Sincerely,

Kevin W Corrigan

Kevin W. Corrigan, Ph.D.,
Radiation Protection Supervisor
