Secretary of the Commission
Attn: Docketing and Service Branch
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

With respect to your "clarification of emergency planning requirements for low-power licenses" I support your new rule that the off-site emergency sirens need not be in place when low level tests take place.

It is essential to get Seabrook and other nuclear plants operating as soon as possible. We need to end the delays and get them into production.

Yours truly

Margaret R. Fredrickson
