OFFICE OF THE SECRETARY  
DOCKETING & SERVICE  
BRANCH

Dear Sirs:

My wife and I support the new rule that would clarify the requirements new nuclear power plants must meet before low-power testing is conducted.

We need the electrical power Seabrook will generate. It's operation has been delayed long enough by political hacks and misguided individuals who have nothing else to do but protest.

Let's get the plant operational and save the millions of dollars being wasted by foolish delays and be assured by the electricity it will produce.
