OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

Gentlemen:

Please help the Seabrook Nuclear Power Station, while sticking to your new rule, which makes it clear that off-site emergency sirens need not be in place when tests are conducted.

Experts agree that such low-power testing poses no threat to the public outside the plant, therefore sirens are unnecessary.

What happened to the Shoreham Nuclear Power Station in Long Island is a disgrace for the whole country.

I am enclosing an article out of todays Wall Street Journal. Please help us Americans to be Energy Independend.

Thank you for your cooperation.

Sincerely,

Carl H. Rosenthal
