OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

In the Matter of
TEXAS UTILITIES ELECTRIC COMPANY, ET AL
(Comanche Peak Steam Electric Station, Units I and 2)
Docket Nos. 50-445 OL, and 446 OL

Dear Mrs. Ellis:

This letter is in response to your letter of May 21, 1988, and to confirm our telephone conversation of May 24, 1988. In your letter you requested that the Staff provide you with the projected schedule for the issuance of the Staff's SSERs with respect to each of the PSRs and for the issuance of the SSER concerning the Collective Significance and Collective Evaluation reports. You requested this information for use at the prehearing conference scheduled to take place on June 1, 1988. Since the time before the conference is short, I telephoned you with the information you requested on May 24, 1988. This letter presents the same information I communicated to you by telephone.

Before presenting the Staff's projected schedule, I must emphasize once again that these are projected dates. However, if it becomes apparent that any of these dates will not be met, I will inform you as early as possible. The next SSER to be issued will be the SSER concerning cable trays. The projected date of issuance is June 24, 1988. After that, the next SSER on the schedule will deal with the mechanical, civil/structural, electrical, instrumentation and control and HVAC disciplines. This SSER, the SSER concerning environmental qualification, and the SSER concerning the Collective Significance Report and CPRT activities in general are all expected to be issued on June 30, 1988. The SSER on both conduit PSRs is scheduled for issuance on July 8, 1988. With the issuance of the conduit SSER, the Staff will have concluded its review of all of the Applicants' PSRs.

If you have any questions about this projected schedule, please feel free to contact me either in writing or by telephone.

Sincerely,

Janice E. Moore
Counsel for NRC Staff
