DOCKET NUMBER PR 50
PROPOSED RULE

Secretary of the Commission
Attn: Docketing and Service Branch
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

(53 FR 16435)

DOCKETED
USNRC

'88 JUN -3 P2:17

SUBJECT: Seabrook Station.

Dear Sirs:

OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

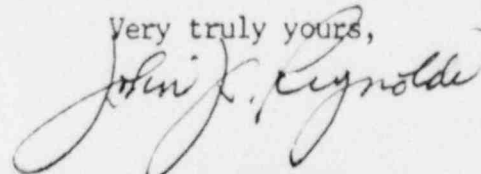

We need Seabrook Station on-line for our energy needs for the present and for those in the future.

Please give all due consideration to making this a reality as New England must grow and this energy source is one that must not get away from us if we are to maintain our current living standards and positive employment rate.

Lets utilize all the energy resources at our disposal and be positive in our approach as we address this most crucial energy need as the year 2000 approaches.

Thank you.

Very truly yours,

John J. Reynolds
283 Summer Street
Weymouth, Massachusetts 02188
