CHARLES H. CRUSE

MANAGER

NUCLEAR ENGINEERING SERVICES DEPARTMENT

September 29, 1988

U. S. Nuclear Regulatory Commission
Washington, DC 20555

ATTENTION: Document Control Desk

SUBJECT: Calvert Cliffs Nuclear Power Plant
Unit Nos. 1 & 2; Docket Nos. 50-317 & 50-318
Request for Relief from ASME Code Section XI Requirements

REFERENCE: (a) Letter from Mr. C. H. Cruse (BG&E) to NRC Document Control Desk,
dated September 15, 1988, same subject

Gentlemen:

Reference (a) was submitted pursuant to 10 CFR 50.55a(g)(6)(i), requesting schedule relief from an ASME Code Section XI requirement. This letter revises our previous submittal and requests relief in accordance with 10 CFR 50.55a(a)(3), proposing an alternative to an ASME Code Section XI reporting schedule.

We are proposing a 30-day extension for submitting Form NIS-2, from October 2, 1988, to November 1, 1988. Compliance with the October 2 deadline would result in hardship or unusual difficulties without a compensating increase in the level of quality and safety. As discussed in Reference (a), the preparation of this form is time consuming due to the number of jobs performed.

Should you have any further questions regarding this request, we will be pleased to discuss them with you.

Very truly yours,
