Secretary of the Commission

OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

Dear Secretary:

Please record my strong approval of the
new rule which will allow on-site testing
of the Seabrook Nuclear Power Plant without
the need for off-site emergency services.

It is imperative that this plant not
be held hostage by the political ambitions
of power-hungry Governors and Senators and
Representatives who are trying to scare the
public.

The fact is, some towns have removed their
sevens hoping to hold up the licensing process.

It is unthinkable that we in the N.E.
who are so dependant on oil should not
proceed to develop Seabrook, not just
one reactor but both as planned.

Sincerely
Thomas Raphael
