DOCKET NUMBER  
PROPOSED RULE PR 50  
(53 FR 16435)

JOHN C. RUNDLETT  
100 PARK TERRACE DR.  
APT. 144  
STONEHAM, MA. 02180

May 29, 1988

Secretary of the Commission  
Attn. Docketing and Service Branch,  
U. S. Nuclear Regulatory Commission,  
Washington, D.C. 20555

'88 JUN -3 P2:22

OFFICE OF THE SECRETARY  
DOCKETING & SERVICE  
BRANCH

Dear Sirs,

As a concerned citizen regarding the future of electric power and one who is highly in favor of Nuclear Energy, I urge you to approve the new rule that allows low power testing without the installation of warning sirens.

To me, concerned scientists and other misinformed citizens opposing nuclear power, do not and will not recognize the possibility of catastrophic events in the troubled parts of the world that could cut deeply into our oil need for the future.

They seem to be able to raise endless, needless, and costly road blocks to this safe source of electric energy; like criminal defence lawyers digging up manufactured evidence to clear a guilty party.

For the future we must have Nuclear Power and our completed plants must be brought on line as quickly as possible.

Sincerely,

*John C. Rundlett*
