Docket No. 50-346

Toledo Edison Company
ATTN: Mr. Donald Shelton
Vice President
Nuclear
Edison Plaza
300 Madison Avenue
Toledo, OH 43652

Gentlemen:

Thank you for the submittal of revisions 5 and 6 of your Quality Assurance Program Description, Chapter 17.2, included in your 1987 and 1988 FSAR updates. We have reviewed the changes incorporated in these submittals and had discussions with members of your Quality Assurance Division during a site visit on April 19-20, 1988.

We understand that you are committed to comply with a draft revision 3 of Regulatory Guide 1.33 dated July 1, 1981, and to ANSI/ANS 3.2-1982. However, the NRC draft Regulatory Guide 1.33 references draft 8 of ANS 3.2-1981. Quality Assurance division personnel plan to compare the two versions and resolve any possible variances.

Based on the above review, we find that the revised program, with the editorial changes discussed between Mr. Tom Vandel of my staff and Mr. L. Ramsett of your staff, meets the requirements of 10 CFR Part 50, Appendix B.

If there are changes to other operative QA commitments existing in docketed correspondence outside of Chapter 17.2 of the UFSAR, you are obligated to notify this office. Implementing such changes should be based on 10 CFR 50.54(a)(3) or 10 CFR 50.55 (f)(3) as appropriate.

We appreciate your timely submittal of the information required by 10 CFR 50.54(a)(3). Please contact Mr. Monte Phillips of my staff (312/790-5530) with any questions you have regarding this matter.

Sincerely,

Original Signed By N. J. Chrissotimos
