Business Week issue of June 6 "Developments to Watch -
'Are we getting lazy about saving energy'" indicates just
how bad an energy crunch is just around the corner.

Lets stop playing games and get Seabrook on the line. We laud
your efforts in the proposed "clarification of emergency planning
requirements for low power licenses" This rule must be enacted.

If Canada chooses not to supply energy, we could have a
serious problem in New England. Seabrook is needed.

A concerned citizen,

Forrest von Brecht
