Re: License No. 20-15215-01

Dear Sirs:

We would like to amend our NRC license to include all isotopes from Atomic Number 3 to 83, inclusive, in any form, and not to exceed a quantity of 5 mCi. These isotopes would usually be in the form of sealed sources, used for the calibration and performance assessment of instruments in our facility, or sources to be resold to our customers.

If there are any questions concerning this amendment, please feel free to contact me at (617)695-4600. Enclosed please find our check in the amount of \$120.00 to cover the cost of this amendment.

Yours truly,

Vincent W. Di Spigno
